About

I am passionate about crafting intuitive user experiences and engaging interfaces and also gaining experiences as frontend developer. With primary focus on UI/UX design, I blend creativity with technical proficiency to deliver compelling digital solutions.

Education

- 2020 – Present
 - Nepal College of Information Technology, Pokhara University
 - Bachelor of Engineering in Software Engineering**
 - I am student of Pokhara University currently majoring my Bachelor’s of Engineering in Software Engineering.

Projects

- **BeautyHub**
UI/UX Designer
I spearheaded the UI/UX design for BeautyHub, an innovative platform offering home beauty services with integrated location tracking. My role encompassed crafting a responsive and user-centric web interface, ensuring seamless interactions across user, client, and admin portals. I designed a cohesive system that harmonizes aesthetics with functionality, enhancing user experience while streamlining service management. Through intuitive navigation, engaging visuals, and robust usability, I transformed BeautyHub into a compelling digital solution that caters to the diverse needs of its users, driving satisfaction and efficiency in the home beauty service industry.

- **Skill Shikshya – Redesign**
UI /UX Designer
Redesigning landing page for Skill Shikshya, a dynamic platform offering both online and offline career-oriented education. My focus was on enhancing visual appeal and user engagement, creating a modern, intuitive interface that clearly communicates the platform's value proposition. By optimizing the layout and incorporating compelling design elements, I successfully improved the user experience, making it easier for visitors to navigate and discover the diverse educational opportunities available. This redesign not only revitalized the brand's online presence but also contributed to increased user interaction and satisfaction.
